Dear Mr Weisberg

Forgive me writing to you, but I am interested in the facts concerning the assassination of President John F Kennedy. This summer I visited Dallas, and found it very interesting.

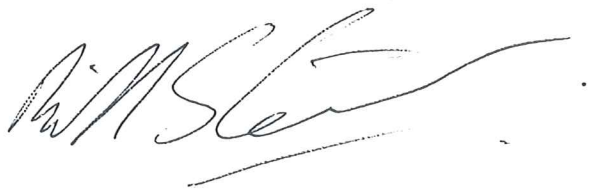
In my view, the assassination was a classic example of a coup d'etat, with a democratically elected politician being removed by violence, and the fact that bits of the truth have emerged is a tribute to tireless researchers such as yourself.

I would be interested to know if you have any publications on the subject.

If you could send me a reply, I would greatly appreciate it.

Thank you very much.

Yours sincerely



Bill Stevens
